

# 'McCarthy Day' Features Closed-Circuit TV Show

Tomorrow will be "McCarthy Day" across the nation as thousands of Democratic presidential aspirants gather in 30 cities in a climax of the summer campaign.

In Southern California the focus for this concentration of support will be the Hollywood Paladium; where a massive rally, featuring a host of political and entertainment personalities, will be held.

Tickets for this gala event can be purchased for \$3 at the Torrance McCarthy Headquarters, 320-7080.

The "McCarthy Day" program will be highlighted by a special message from the senator televised live from a

similar rally to be held in Madison Square Garden in New York City.

Among the entertainers to be featured at the Paladium rally will be Paul Newman and Joanne Woodward, Bob Newhart, Eddie Albert, Jayne Meadows, Myrna Loy, Don Murray, and Barbara Rush.

There will also be a special appearance by Dolores Huerta, vice president of the American Farm Workers Union, and associate of Cesar Chavez.

"McCarthy Day" will climax the arduous summer campaign which has sustained the broad-based enthusiasm for the Minnesota

senator following his impressive showing during the spring primaries.

A nation-wide petition drive was initiated to collect ten million support signatures to be placed before the Democratic National Convention in Chicago and more than 1,000 Neighborhood Centers have been established in Southern California alone.

### TRUCKING BIG BUSINESS

Each year the trucking industry buys nearly five million gallons of paint, 176 million pounds of lead, 26 million gallons of anti-freeze and 21 million tires.

# Pomona Fair Hosts Retirement Plan Credit Sought For Teachers from Out of State

For those who want excitement, the Los Angeles County Fair's famous million dollar Fun Zone will be the place to be at fair time this year.

A total of 69 rides and attractions will spin, bounce, and flip more than a million visitors during the exposition's 17 days and nights, Sept. 13-29.

Five new rides will highlight Fun Zone activities at the 41st annual exposition. The Skydiver, a ferris wheel with spin, heads the list of new attractions. Others are the Himalaya, a 75 foot circular thrill ride; the Tiptop, a circular ride with bouncing platform; and the Trabant, a circular attraction with platforms that spin in opposite directions.

Champion cyclists roaring around inside the "Wall of Death" complete the list of new attractions. Entitled the Motordrome, the Wall allows Fun Zone visitors to view motor cycle riders racing inside a huge spinning barrel.

The exposition's famous carousel, one of only 23 on the west coast, tops the list of returning attractions. Other veteran favorites include the huge Skyride, the bumper cars, the Giant Slide, the Matterhorn and German Fun House.

The kids won't be left out of the fun either. Two kiddie lands with more than 30 different rides will provide un and excitement for younger family members.

Teachers who complete their educational training and classroom experience have been trained at the expense of taxpayers in other states, the state field director for an educators' organization has declared.

Harold M. Stannard of Torrance, who represents the Association for Retirement Credit for Out-of-State (ARCOSS), said California's school system could not be sustained without the services of teachers from outside the state.

"Population growth in California makes out-of-state recruitment of teachers vital and some districts actually have been recruiting teachers from outside the country to make up their deficiencies," Stannard said.

LOOKING at the situation from another angle, Stannard said, "More often than not, the adult immigrant to California will make no tax contribution to the retirement of any of his teachers."

Teachers who come to California frequently find many of their former students also have moved to the Golden State.

"Members of ARCOSS do not want welfare or any money they have not earned but want only to be allowed to transfer their retirement funds from the state where they previously taught to a California retirement system," Stannard said.

ARCOSS state headquarters is at 14402 Beach Blvd., Westminster.

decisions, transients would not have to maintain residence in the state for any minimum time to collect full welfare benefits.

"This is a productive group, interested only in securing for themselves a retirement allowance that will make welfare for them unnecessary," Stannard said.

To qualify for ARCOSS retirement, a teacher would have to complete 10 years of teaching in California. Upon qualifying for the program, the teachers would buy into the teacher retirement plan for up to 10 years of prior service.

ARCOSS state headquarters is at 14402 Beach Blvd., Westminster.
